CITY OF ALEXANDRIA
MEMORANDUM

DATE: OCTOBER 20, 2003

TO: ALL APPLICANTS

FROM: RICHARD J. BAIER, P.E., DIRECTOR
TRANSPORTATION & ENVIRONMENTAL SERVICES

SUBJECT: VARIANCE OR WAIVER OF UNDERGROUND UTILITIES REQUIREMENT

City Code Section 5-3-4 allows less than full compliance with the underground ordinance outside of areas where lines are already underground, or where the City has ongoing undergrounding projects or programs.

The director of Transportation & Environmental Services may grant a waiver provided the applicant:

- 1) submits a written application;
- 2) pays an application fee of \$100.00; (non-refundable)
- 3) the request meets at least one of the following criteria:
 - a) the City arborist has determined that the new or expanded customer utility service, if placed underground, would endanger an existing mature tree by damaging its root system;
 - b) the new or expanded customer utility service, if placed overhead, would not be visible from a public street or any other public right-of-way;
 - c) the new or expanded overhead customer utility service, if placed underground, would significantly interfere with one or more existing city or private underground utilities;
 - d) if the waiver were granted, there would be a reduction in the total number of overhead customer utility service lines serving the applicant's property;
 - e) if the waiver were granted, the length of the overhead customer utility service to the applicant's property would be less than the length of the service in existence at the time the application is made.
